

Genuine Becker Complete Rebuild Kits

All Rebuild Kits come with parts necessary to give your Becker pump an overhaul and keep it running like new. Parts include vanes, filters, bearings, seals, gaskets and other wear parts.

The benefits of using genuine parts:

- Lower annual maintenance costs
- Increase efficiency
- Use a Complete Rebuild Kit in place of a standard maintenance kit when your pump requires more attention than standard maintenance to make it run like new again.
- Use the Becker Genuine Complete Rebuild Kit to maintain your warranty, increase the longevity and performance of your Becker Rotary Vane Pumps.
- Each of these components is engineered specifically for a specific pump.
- Keep an extra kit on the shelf to ensure you have all the components on hand for regularly scheduled maintenance.

Let Control Specialties help you find that right Complete Rebuild Kit

We specialize in finding those hard to find items!
